The best facial hair remover.

The Flawless hair remover is the best I've ever used. It's better than waxing because it doesn't hurt and much cheaper than waxing. It's 19.99, you can't beat that. It takes about one minute to do around my eyebrows, above my lip and my chin area onto my neck. I hope they make one for legs soon.

Discreet, but insufficient for dark, thick hair.

Pros: The product is affordable and discreet. It looks like a lipstick, and I keep it in my cosmetics bag. It does cut your facial hair, but...

Cons: You need to go over the same area multiple times and push it against your skin, to get a good shave. Still, it won't give you a close shave, and that's annoying, because your face will not feel completely smooth, even immediately after use. That's not a big problem for peach fuzz. However, if you have patches of thicker, darker hair that grow fast, they will feel rough. I wish it would cut the hair in a way that it doesn't feel so scratchy. Furthermore, the motor speed is kind of variable. At times I thought that the battery was dying [Read full review...](#)

Not as good as advertised

Its not as good as advertised. You have to go over an area several times to get rid of all the hair. It doesn't work on coarse hair at all.

Circular motion

Razor are meant to go only 1 direction, if you change the direction it is possible that you will get razor bumps from the changing of the motion. I would not ever recommend this to anyone. I now have razor bumps above my lips that I have never had before.

They also do Not tell you that you have to change that blade inside of it, it's only in the packaging....

I thought that they had discovered something new?

But NO such thing, I would never purchase another one, Nor would I ever refer it to anyone ever... [Read full review...](#)

Flawless Hair Remover

I just got my product yesterday. I used it right away & I was impressed with it. It definitely removed hair above my lip very well & on my chin.

It was easy to use & clean. It was easy to get going. The fact that I received 2 for the price of 1 was a good deal. Hopefully, it (they) keep working as well as they do now. I am very satisfied with this product as of now.

Excellent

This flawless finishing touch facial hair remover is excellent. It is gentle on sensitive skin. You will have no nicks, cuts, or bumps. It oscillates while removing hair. It works on the face, belly, bikini areas, underarms and legs. I love it. You love it to. Excellent price for a job well done.

Good for the price

It works well, and you really do get best results if you use it every day. If you're like me and have LOTS of peach fuzz it requires cleaning every time you use it. Which still isn't hard or bad with the little brush they send you. Doesn't work on the thicker more coarse hairs tho, still have to pluck them. But I'd def say it great for the price considering what alot of brands charge for these.

Was disappointed that it was NOT in a box, just wrapped in bubble wrap. Not as described.

Works well but was intended ad Christmas gift and did not come in original box. Felt cheap giving it that was but thankfully my sis says it works well. LUCKY!

Worthless

The only thing that I have to say about this item is that it's made of plastic and very easy to break would not recommend. I only had it for a week and a half when the top part cracked so now I cannot even use it worthless if it would have been made out of metal of some kind it would have withhold.

Bad quality

Upon trying this product the first time I thought it was great and did a good job.. since then when using the product it doesn't want to cut.. almost like using an old razor blade that goes dull and no hair or fuzz in the top chamber.. I would not recommend this to anyone..

Excellent

This flawless finishing touch facial hair remover is excellent. It is gentle on sensitive skin. You will have no nicks, cuts, or bumps. It oscillates while removing hair. It works on the face, belly, bikini areas, underarms and legs. I love it. You love it to. Excellent price for a job well done.

Good for the price

It works well, and you really do get best results if you use it every day. If you're like me and have LOTS of peach fuzz it requires cleaning every time you use it. Which still isn't hard or bad with the little brush they send you. Doesn't work on the thicker more coarse hairs tho, still have to pluck them. But I'd def say it great for the price considering what alot of brands charge for these.

Was disappointed that it was NOT in a box, just wrapped in bubble wrap. Not as described.

Works well but was intended ad Christmas gift and did not come in original box. Felt cheap giving it that was but thankfully my sis says it works well. LUCKY!

Worthless

The only thing that I have to say about this item is that it's made of plastic and very easy to break would not recommend. I only had it for a week and a half when the top part cracked so now I cannot even use it worthless if it would have been made out of metal of some kind it would have withhold.

Bad quality

Upon trying this product the first time I thought it was great and did a good job.. since then when using the product it doesn't want to cut.. almost like using an old razor blade that goes dull and no hair or fuzz in the top chamber.. I would not recommend this to anyone..

Say no to no-no

Omg super impressed on how this little gadget works. Super easy to use and does not burn, hurt or irritate your skin. Skin feels smooth to the touch and it's portable. It looks like a lipstick and it's concealed until you take the lid off and there she rolls. The built in light is great so you get closer or not to areas that you're trying to fix. Overall great product for the price.

Doesn't work very well

I waited three weeks for it, but it barely removes knuckle hair. I'd be better off using a big ol' men's electric shaver, since this is just a sad, cutesy little version of one. Waste of time and money.

No more stressing over facial hair

I'd been stressing about my facial hair over the year. The chemicals were burning my skin and just didn't last. This product is easy on my skin and I don't have to use it that often (once 10-12 days).

Poor quality

Unit worked twice, then quit. Tried new batteries which were hard to insert and remove. No luck. Stuck with a non-working unit. Recommended? No, unless manufacturer creates better product. The idea is great.

The best facial hair remover.

The Flawless hair remover is the best I've ever used. It's better than waxing because it doesn't hurt and much cheaper than waxing. It's 19.99, you can't beat that. It takes about one minute to do around my eyebrows, above my lip and my chin area onto my neck. I hope they make one for legs soon.

Top critical review

Discreet, but insufficient for dark, thick hair.

Pros: The product is affordable and discreet. It looks like a lipstick, and I keep it in my cosmetics bag. It does cut your facial hair, but...

Cons: You need to go over the same area multiple times and push it against your skin, to get a good shave. Still, it won't give you a close shave, and that's annoying, because your face will not feel completely smooth, even immediately after use. That's not a big problem for peach fuzz. However, if you have patches of thicker, darker hair that grow fast, they will feel rough. I wish it would cut the hair in a way that it doesn't feel so scratchy. Its not as good as advertised. You have to go over an area several times to get rid of all the hair. It doesn't work on coarse hair at all.

Razor are meant to go only 1 direction, if you change the direction it is possible that you will get razor bumps from the changing of the motion. I would not ever recommend this to anyone. I now have razor bumps above my lips that I have never had before. They also do Not tell you that you have to change that blade inside of it, it's only in the packaging.... Flawless Hair Remover

I just got my product yesterday, I used it right away & I was impressed with it. It definitely removed hair above my lip very well & on my chin. It was easy to use & clean. It was easy to get going. The fact that I received 2 for the price of 1 was a good deal. Hopefully, it (they) keep working as well as they do now. I am very satisfied with this product as of now.
