[Top favorable review](#)**The best facial hair remover.**

The Flawless hair remover is the best I've ever used. It's better than waxing because it doesn't hurt and much cheaper than waxing. It's 19.99, you can't beat that. It takes about one minute to do around my eyebrows, above my lip and my chin area onto my neck. I hope they make one for legs soon.

Pros: The product is affordable and discreet. It looks like a lipstick, and I keep it in my cosmetics bag. It does cut your facial hair, but...

Cheap cheap cheap

It did not work when we first got it. Tried different batteries. No luck. Tapped it a few times and it worked for a second. Took the battery out and had to bend the connection where the battery sat for it to finally work. Then it did a marginal job of shaving.

The size is great. The functionality and quality is lousy. Luckily, the price was so low that even if we had to throw it away, we would not lost any sleep over it. Will be very careful buying cheap stuff.

Flawless Hair Remover

I just got my product yesterday. I used it right away & I was impressed with it. It definitely removed hair above my lip very well & on my chin.

It was easy to use & clean. It was easy to get going. The fact that I received 2 for the price of 1 was a good deal. Hopefully, it (they) keep working as well as they do now. I am very satisfied with this product as of now.

Just the right size, works well.

I purchased this for my wife, she really likes it, always carries it in her purse. It is small, has a nice finish, works well and easy to use. Requires one AA battery, easy to replace the battery.

Just the right size, works well.

I purchased this for my wife, she really likes it, always carries it in her purse. It is small, has a nice finish, works well and easy to use. Requires one AA battery, easy to replace the battery.
